DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claim 1 is rejected under 35 U.S.C. 102(b) as being clearly anticipated by Pellet.

Pellet shows a vise comprising a body E having an internal bore C, at least one face, a jaw track carried by the one face, a piston H disposed in the bore C, a master jaw G operatively connected to the piston H and slidably disposed in the jaw track, and a top jaw T carried by the master jaw G.
